Travis CI status: [\[Build Status\]](#)

Chapter 1. Introduction

This project contains example of `asciidoctor-maven-plugin` usage

Read [project reference documentation](#)

Project generated by [generator-jvm](#) yeoman generator (java)

Chapter 2. Implementation

plugin configuration

```
<project xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance"
  xmlns="http://maven.apache.org/POM/4.0.0"
  xsi:schemaLocation="
    http://maven.apache.org/POM/4.0.0
    http://maven.apache.org/xsd/maven-4.0.0.xsd">
  <build>
    <plugins>
      <plugin>
        <groupId>org.asciidoctor</groupId>
        <artifactId>asciidoctor-maven-plugin</artifactId>
        <version>1.5.6</version>
        <dependencies>
          <dependency>
            <groupId>org.asciidoctor</groupId>
            <artifactId>asciidoctorj-pdf</artifactId>
            <version>1.5.0-alpha.16</version>
          </dependency>
        </dependencies>
        <executions>
          <execution>
            <id>output-pdf-doc</id>
            <phase>generate-resources</phase>
            <goals>
              <goal>process-asciidoc</goal>
            </goals>
            <configuration>
              <backend>pdf</backend>
              <!--
                Since 1.5.0-alpha.9 PDF back-end can use 'rouge' as well as 'coderay'
                for source highlighting
              -->
              <!--
                Due to a known issue on windows, it is recommended to use 'coderay'
                until an new version of 'rouge' is released.

                see discussions: https://github.com/asciidoctor/asciidoctor-maven-examples/pull/58

<defaultGoal>clean process-resources</defaultGoal>

```

```
</build>  
</project>
```

this plugin configured for base directory: `./docs`

Chapter 3. Test usage

build fat jar

```
./mvnw clean process-resources
```

run app

```
npm i -g serve  
serve ./target/generated-docs  
open http://127.0.0.1:3000
```

Chapter 4. Build documentation

build documentation

```
./mvnw process-resources
```
